

## Math 4060 (Cherry) Assignment #8

### In Office Presentation to do BEFORE March 3

Study and prepare to present the proposition assigned to you on the back. However, instead of presenting in class, you will be asked to make an appointment with me to give your presentation in my office. Please make an appointment with me via e-mail <wcherry@unt.edu> to give your presentation. You should not try to schedule your appointment during my regular Monday/Wednesday morning office hours. I'm generally available by appointment at the following times:

Mondays	after Noon
Tuesdays	most times
Wednesdays	after Noon
Thursdays	most times
Fridays	10–3
Weekends	most times

Try to memorize your proposition if you can (some of these are much longer than the last ones so you can use notes if you need), know the statements (not necessarily the proofs) of propositions that your proposition depends on, feel free to translate to modern language, use your own words, *etc.*
